

**877-725-2467 ext. 2**

**Excellence** in service is claimed by many companies but actually offered by a select few. **Medivest's** experience as **professional MSA administrators** provides us with a unique perspective, learned from **administering MSA allocations** and **medical custodial accounts** since 1996.

A **Professional Administration Agreement** requires that a predetermined amount of money be transferred to Medivest to be administered on behalf of the injured person for future medical care and other needs.

### Benefits of Professional Administration

-  Reduces potential legal exposure by taking into consideration the best interest of the injured person
-  Decreases potential liability exposure if Medicare entitlement is jeopardized
-  Satisfies CMS ( Medicare ) statutory compliance requirements
-  Reversionary interest agreements available to recapture claims dollars
-  Accounts may be funded with a structured settlement annuity, which may result in a substantial cost savings on a claim file
-  A lump sum payment issued to the injured person may be the quickest way to settle, however it does not insure the money is there when medical services are needed. Medivest's professional administration services guarantees the money is there when it is needed most.
-  Our professional administration team will coordinate account setup with all appropriate parties if requested.

***Medivest is a relationship focused company that cares deeply about our clients and is dedicated to providing them with the best customer service, settlement solutions, and post-settlement administration in the industry.***
