

6

Reasons to Use Professional Administration

Are you in the process of settling a worker's compensation or liability case? Are you interested in ensuring Medicare Secondary Payer (MSP) compliance on your case? If so, here are six reasons why you should choose Medivest Professional Administration for all your cases.

1. **Highly Recommended by Medicare** - CMS (Medicare) WCMSA Reference Guide states, "Although beneficiaries may act as their own administrators, it is **highly recommended** that settlement recipients consider the use of a professional administer for their funds."
2. **Risk Mitigation** - There is substantial risk to all parties when resolving a claim which includes future medicals. Professional administration through Medivest adds a layer of certainty and protection for all parties by ensuring post-settlement medical funds will be spent appropriately.
3. **Savings** - Medivest will work to preserve funds in the account through negotiated savings on medical services, future surgeries, hospitalization, durable medical equipment, and medical supplies.
4. **Ease of use** - The injured individual (Member) will receive a Medivest ID card to present to their providers which acts like a traditional insurance card. Medivest handles everything from there.
5. **Coordination of Benefits** - Medivest will properly coordinate benefits with providers, Medicare, group health plans or any other insurance, ensuring payment by the correct primary payer.
6. **Free choice** - Medivest does not limit the injured individual to a network of medical providers. They are free to choose their providers and can receive care anywhere in the country so long as it is covered by Medicare and related to their injury.

Medivest helps settling parties engineer a win-win solution in every State. From the simple straightforward claims to the most complex, we have developed solutions that address an array of post-settlement concerns. Let Medivest help you integrate Professional Administration into your cases.

About Medivest

Medivest was recognized by The Centers of Medicare and Medicaid Services (CMS) for professionally administering the first Medicare Set-Aside (MSA) arrangement. Today we are a national company who continues to be a leader in Medicare Secondary Payer (MSP) compliance. We have developed into a full-service industry innovator, creating effective methods, and providing solutions aimed at achieving a higher net settlement while ensuring MSP compliance.
