

I HAVE A SETTLEMENT NOW WHAT?

Your settlement is designed to take care of the current and future medical needs related to your injury. If your settlement contains a Medicare Set-Aside (MSA) portion, this obligation comes with many rules and regulations. This includes everything from using fee schedules to pay for care and supplies, to sending Medicare the reports they require annually. As you know, there can be a lot of bills, which can mean a lot of work for you or your caregiver. Medivest can take the burden of compliance from you.

Who is Medivest?

Medivest is the nation's leading professional administration company. We were founded in 1996 and were the first company to administer Medicare Set-Aside accounts. There's nobody with more experience and knowledge than Medivest. We are here to help you get the most out of your medical settlement funds and make your life easier.

Most importantly, our job is taking care of you and your medical needs.

MEDIVEST®

MSP Compliance Solutions

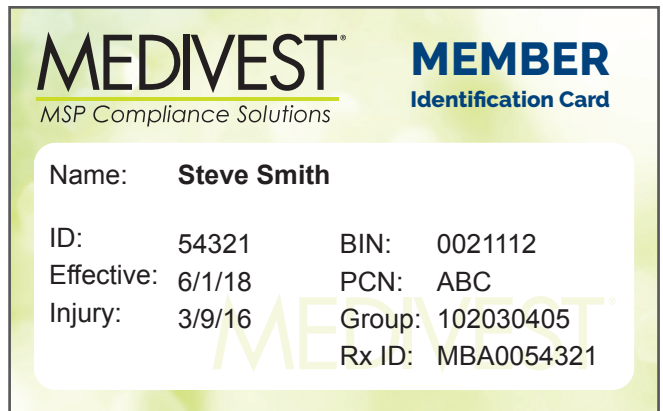

What can Medivest do for me?

We pay all the bills related to your injury. All you have to do is show your Medivest Card to your provider. Whether you are seeing doctors, buying medical equipment, in the hospital or going to the pharmacy, they send the bill to us and we take care of the rest.

Simple. Easy. Accurate.

How do I get started?

Once your account is set up at Medivest, you will receive a Welcome Kit. This will have your personalized Medivest ID Card and helpful instructions on everything you will need to know. You will then be contacted by a friendly Medivest client support team member to go over your kit with you and answer any questions you may have.

How do I use my Medivest ID card?

In many ways your Medivest ID card works like a traditional insurance ID and plan, but when you use it for a medical cost related to your injury there should NEVER be an upfront cost or copay. Here are a few tips on using your Medivest ID card.

Your account may be new to your doctor and other providers. All you need to do is hand the provider your Medivest ID card and tell them your account pays for 100% of the bill if the service is related to your injury. If the doctor or billing department has questions, have them call our friendly Customer Service team and we can explain everything to them directly.

For your prescriptions, go to any pharmacy you like. Medivest will set up all approved drugs as soon as your account is active. Just like your approved medical services, there is no co-pay. We make sure your pharmacy account is ready to go as soon as your case is active, so there won't be any delays in getting your medications. Be sure to hand your Medivest ID card to your pharmacy on your first visit. It has all the information they need to fill your prescription.

What happens if you pay for something out of pocket instead of using your ID card? No problem. Just send us the bill and your receipt of payment. Medivest will reimburse you.

Can my MSA be used for other expenses?

Remember, only expenses that are covered by Medicare AND related to your injury can be used with your MSA account. So what about medical expenses that are not covered by Medicare or other expenses that are not related to your injury? Medivest can help with that too! Be sure to ask us about our Medical Custodial Account (MCA) and all the other innovative ways we can help you with your medical expenses.
