

WHO IS MEDIVEST?

Medivest is a national Medicare Secondary Payer (MSP) compliance company. Our focus is assisting anyone involved in the settlement of a workers' compensation or personal injury claim understand their obligation to consider Medicare's interests under federal law. We provide solutions that help to mitigate exposure resulting from that obligation. Medivest has been providing this service since 1996 and has developed a program of services customizable to the Medicare Secondary Payer Compliance needs of any settlement.

Medivest takes a comprehensive approach to MSP Compliance. We have found it best to address the issues as early as possible in the settlement process. We recommend ensuring that any funds set aside to consider Medicare's interests (the "Medicare Set-aside") are properly administered post-settlement.

Medivest is the most experienced professional administrator of Medicare Set-Asides in the industry. We were the first company to professionally administer a Medicare Set-Aside and since then, have developed an effective system to ensure MSP compliance, and stretch settlement dollars to their fullest.
